# INCREASE POWER 39%

Simply put, this unit when used on your golf buggy will increase the Power output of your motor by a massive **39%**

If you wish you could have that bit of extra power when climbing or maneuvering on difficult areas of the course then this unit is the answer. Can be easily fitted, replacing the speed controller on your Powerhouse buggy models: Pro, Pro S, Titan or Titan S.

*Call for details.*

**Kit includes:**

- Replacement S-Drive Controller
- 14 way wiring harness
- Upgraded wiring leads
- Full fitting instructions.

*...the power behind your game*
