2 x Stabilizer Wheels  
1 x Golf Club Carrier  
1 x Front Mesh Basket  
Tool Kit and Instructions

"The **Powerhouse Golf Pro** Golf Buggy is the original golf buggy in the current range, designed and made by Powerhouse Golf. The Pro Golf Buggy has a number of features built into it to simply help you ease around the course with minimal fuss. The buggy is Now equipped with a single 18-hole lightweight Lithium battery as standard to make navigating around a light to medium golf course effortless. The unique tiller style steering column with easily accessible hand controls allow the user to control the speed, direction and monitor battery levels with the ultimate ease whilst the fully automatic brake provide fantastic control.

The 'twisting' chassis of the Pro Golf Buggy is durable and strong yet is flexible enough to ensure that all four wheels of the buggy remain firmly on the ground even over troublesome terrain. This allows the buggy to offer supreme grip through the large rubber fairway friendly tyres in all weather conditions. The Pro Golf Buggy is not only great with transportation around the golf course. The frame can also be quickly dismantled to allow the buggy to fit into most hatchbacks and smaller storage spaces.
